

We love our patients. We think you will, too.

Award-winning training Acute Staff RN in for our in-patient Hospital Dialysis

Work autonomously in an intense hospital environment - without the typical hospital routine. Provide the highest level of care at one of the more than 800 hospital units and ensure your patients' safety, comfort, and well-being with a nurse to patient ratio typically not more than 1:5. As a nurse at DaVita you are on your toes working in a fast-paced, constantly evolving environment with new challenges to trouble-shoot and overcome daily. Your sense of purpose and accomplishment at the end of each day is powerful.

What can you expect as an acute dialysis nurse at DaVita?

Patients - Help your patients, when they need it the most.

Patient care is our top priority and we look for teammates who share our commitment to Service Excellence as well as Continuous Improvement. You can build your career in nephrology and practice multiple therapies (CRRT, aphaeresis, etc.) as an Acute Nephrology RN at DaVita

Independence - Manage your patients on your own in a hospital setting.

As a teammate in an acute setting you, work on your own almost all of the time. Each day you assess, troubleshoot, and make sound decisions for critical patients. What an exciting challenge to take on!

Intensity - Expect the unexpected.

No two days are ever the same for an acute dialysis nurse. The setting is dynamic and each patient's needs are unique. When you walk in the door each day you don't know what patients you might have - their condition, when you will get them or when you will be done for the day.

- *"I love problem solving and the challenge of the role of acute nursing. I get a lot of respect from the doctors and my team." - Ginny E.*

We offer career options to fit your lifestyle.
