SAINT ANTHONY COLLEGE OF NURSING - ROCKFORD, ILLINOIS

POLICY #R324

TITLE: DUAL ADMISSION FOR RN-TO-BSN STUDENTS

The Board, Administration, and Faculty affirm that all students in the College of Nursing BSN degree program must possess intellectual, physical, ethical, emotional, and interpersonal capabilities necessary to complete the BSN degree and to achieve the levels of competency required for safe professional nursing practice. Disabled individuals who apply to Saint Anthony College of Nursing are considered on an individual basis and in compliance with state and federal laws. The College cherishes its right and duty to seek and retain individuals who will make a positive contribution to all aspects of the College Mission.

Saint Anthony College of Nursing may elect to enter into agreements with local colleges and/or universities to offer "dual admission" to the BSN program. It is a requirement that a student who is granted "dual admission" complete the Associate Degree in Nursing (ADN) program and the RN licensure requirements. Selected courses will be available to a student who meets the required course prerequisites.

Any agreement with a college and/or university must be reviewed bi-annually to ensure both parties wish to continue the dual admission process and confirm that the admission requirements meet or exceed the minimum requirements for the RN-to-BSN program.
