"In the spirit of Christ and the example of Francis of Assisi, the Mission of OSF HealthCare is to serve persons with the greatest care and love in a community that celebrates the gift of life." We carry out our Mission by providing state-of-the-art, compassionate care to more than 3.7 million people in the communities we serve. OSF Healthcare System is a multi-state corporation operating facilities in Illinois and Michigan. We are nationally recognized as a leading integrated health care network of facilities. Our parent company, The Sisters of the Third Order of St. Francis, is a not-for-profit corporation reinvesting our resources into the communities we serve since 1877.

**OSF HealthCare**, an integrated health system owned and operated by The Sisters of the Third Order of St. Francis, Peoria, Illinois, includes OSF Healthcare System consisting of nine acute care facilities and two colleges of nursing. It also has a physician organization, OSF Medical Group. To align more closely our care delivery system with physicians we developed clinical service lines in cardiovascular services, neurosciences and pediatrics. We employ almost 700 physicians and nearly 300 mid-level providers operating in more than 90 office sites. OSF HealthCare operates an extensive network of home health services known as OSF Home Care Services and also owns OSF Saint Francis, Inc., comprised of health care-related businesses, and OSF Healthcare Foundation, the philanthropic arm for OSF Healthcare System and OSF Home Care Services.
